

DATA ACCESS POLICY

1. Unless subject to commercial-in-confidence restrictions embedded in contractual terms, every acquired dataset will be subject to open access embargo for a period of 3 years post-acquisition.
2. Access by others to datasets subject to embargo will require written permission from the original Client or her/his representative.
3. On cessation of embargo, access may be granted to processed form data upon request and data provided at cost of reproduction. Prior to providing access the original Client or his/her representative may be informed and consulted.
4. Reprocessing or processing to different format may be subject to charge regardless of any embargo period.
5. Additional copies of data products may be subject to charge, and if within an embargo period, will require written permission of the original Client or her/his representative.
6. Access requests should be made to a Facility Director.
